Claims 1-8, 10-18, 20-28 and 30 are allowable over the prior art of record because none of the prior art whether taken singularly or in combination to teach the claimed combination as recited, especially when these limitations are considered within the specific combination with other limitation of the claim. The prior art of record fails to teach "the estimate signal is derived from correlations with other instrument signals, wherein the instrument signals include at least one of signals associated with internal performance parameters maintained by software...which are periodically generated for the purpose of measuring quality of service from an end user's perspective."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
